

What Exactly Do Your Packages Include?

We understand that you're investing a lot of money into your event and that your choice of entertainment will have the largest impact on it's success. As consumers ourselves, we also know that you want a quality product for the best price around.

Our services include a punctual and experienced DJ with professional sound equipment, wireless microphone and a rockin' library of great music mixes. Your DJ is sure to keep your party moving and adhere to your every entertainment need! This comes standard with any of our party packages.

Our party packages are built from the ground up because every client has different needs. Special promotions are posted from time to time in full page ads or in our monthly newsletter so be sure to check your local paper or bridal guide often. You may also subscribe to our monthly newsletters for great deals and vouchers.

More information on our individual packages can be found at the bottom of each page or in the "Services" page.
