

May I Come To An Event And Observe One Of Your DJs Performing?

That's okay with us, however certain restrictions may apply.

Please contact us first so that we may choose an event most appropriate for you to attend. While at the event, you can meet one of our DJs, ask him any questions you may have, see him perform, and get a glimpse of the scheduled entertainment for that day or evening. We are positive you will enjoy your short stay and will have first hand proof that we are your right choice after all!
